# Badhan Biswas

## CSE Undergraduate

As a passionate and dedicated CSE student, my objective is to contribute my technical knowledge and problem-solving skills to a dynamic and innovative organization. I am eager to apply my expertise in programming languages, software development, and database management to develop cutting-edge solutions that drive technological advancements. I strive to collaborate with a team of like-minded professionals to tackle real-world challenges and make a meaningful impact in the field of computer science and engineering for the organization.

## PROJECTS

### Captain's Mistress

Jan 2023

PyGames

I have tried to recreate the famous game Captain's Mistress also known as Connect Four, using PyGames. I am planning to make it multiplayer using sockets in next few updates with a better UI and background Music.

### Portfolio Website

2022 - 2023

HTML CSS & JavaScript

I am building a portfolio website using the GitHub sub-domain. I am using HTML for marking up the layout of the website, CSS for styling and visually enhancing HTML elements and JavaScript to enables dynamic behavior on web pages. I am using [Minimal Mistakes Jekyll Theme](#) for basic design idea.
